Dr. B.D. Jade Foresees a Potential Yield of 10 Tons per Acre with Ellora Maize Hybrids"

The visit of Dr. B.D. Jade marks a pivotal moment for ENSPL, bringing together key stakeholders in a dynamic exchange. The engagement between Plant Breeders, Scientists, and ENSPL staff has proven to be a rich source of insights.

Noteworthy discussions transpired between Mr. Kishor Veer, Managing Director, and Mr. Pramod Chaudhari, Project Head-Maize (Pan India), delving into the distinctive features and market performance of ENSPL's maize hybrids. This dialogue reflects a dedicated commitment to ensuring the success of these products.

Dr. B.D. Jade's endorsement of a potential yield of 10 Tons/Acre for Ellora Maize Virat 12, Ellora Maize Virat 12, and Ellora Maize Kranti 56, accompanied by recommendations for drip irrigation and a specific fertilizer schedule, underscores the transformative impact these hybrids can have on maize yields. The emphasis on judicious water use and scientifically validated fertilizer dosages aligns seamlessly with sustainable agricultural practices, striving for optimal output with minimal inputs to reach the targeted yield potential of 10 Tons/Acre.

The counsel extended to farmers to embrace these practices, coupled with the stellar performance of ENSPL maize hybrids, presents a promising strategy. This not only holds the promise of potentially doubling farmers' income but also resonates with the broader objective of advancing sustainable and efficient agricultural practices.

This development stands as a positive stride for the farming community, and the ensuing impact on maize cultivation in the region is eagerly anticipated as these recommendations and ENSPL maize hybrids are adopted.

ENSPL extends heartfelt wishes for a joyous and prosperous Diwali to our valued staff members, esteemed dealers, dedicated distributors, and hardworking farmers spanning across Pan India. May this festival of lights illuminate your lives with happiness and success.

Onion Bulb Distribution Launch Marked by Auspicious Pooja Ceremony

Onion Bulb distribution for Rabi Seed Production commenced as the inaugural truck, laden with bulbs, set out nearly a week ago to the conventional production zone. Mr. Sharad Veer, the Director of ENSPL, along with Mr. Ashok Zagade, Mr. Vishal Jadhav, Mr. Milind Gavai, Mr. Akshay Shinde, Mr. Mahesh Raut, and various team members from the Factory Works Department (FWD) and Logistics Departments actively participated in a Pooja Ceremony dedicated to the success of the Rabi Production vehicle.
